

Who is it for?

This Fire Awareness training course is suited to anyone member of staff requiring a basic understanding of key fire prevention measures, the legislation surrounding fire risk management and what to do in the event of a fire. These basic skills can be vital in the prevention of fires and help to protect both people and property.

It is a regulatory requirement that staff must be provided with fire training appropriate to their role and the environment in which they work.

What is covered?

- Causes of fire
- The Fire Triangle
- Types of fire
- Types of extinguisher
- Fire prevention
- Actions to be taken in the event of a fire
- Legislation Regulatory Reform (Fire Safety) Order 2005

How long is it?

Half Day (3 – 4 hours)

Places are limited to 15 delegates per course and can be held throughout the UK at a venue of your choosing to keep disruption to your business to a minimum.

Upon completion delegates will receive a certificate of attendance.

A refresher training course in line with the training requirements of the Regulatory Reform (Fire Safety) Order 2005 is available.

For further details of this or other courses call please call or email us.

Asbestos ▪ Fire ▪ Environmental ▪ Legionella ▪ Health and Safety ▪ First Aid

Who is it for?

This Fire Management training course is suited to those who manage the fire safety of a building or premises. It covers the legal requirements of a company under the Regulatory Reform (Fire Safety) Order 2005, and the role of the Fire Safety Manager under the regulations. This will provide you with practical information and knowledge to assist with effective fire management.

With fires being a risk in any building our experienced trainers will be able to address issues in a range of situations from an inner-city Hospital to a construction site.

What is covered?

- Legislation - Regulatory Reform (Fire Safety) Order 2005
- Roles and Responsibilities
- Understanding your Fire risk assessment
- Staff training
- Evacuation plans
- Maintaining escape routes
- Building user profiles
- Managing and maintaining equipment
- Recording keeping and equipment testing

Who is it for?

This course is designed for those personnel employed in larger companies who are responsible for organising and controlling staff within their designated area, during the evacuation of the premises in the event of fire.

The action of a responsible person who at the time of crisis can portray calm and efficiency, are all too important during an outbreak of fire no matter how large or small. Vital seconds can be saved, as can both lives and property.

On completion of the course, attendees should have an adequate understanding of fire safety and should be able to recognise fire hazards within their workplace and be aware of the correct action to take to rectify those hazards.

What is covered?

- Introduction – aims and objectives
- Legislation Regulatory Reform (Fire Safety) Order 2005
- Group Exercise – includes raising the alarm, evacuation procedures, assembly
- Fire Marshal Role – duties and responsibilities
- Fire Prevention & Good Housekeeping – areas of danger & risk
- Chemistry of Fire – fire triangle & spread of fire
- Extinguisher Demonstration – ‘hands on’ staff training with live fire (wherever possible)
- Home Fire Safety

How long is it?

One day (7-8 Hours)

Places are limited to 12 delegates per course and can be held throughout the UK at a venue of your choosing to keep disruption to your business to a minimum.

Upon completion delegates will receive a certificate of attendance.
