WHO IS IT FOR?

This course is ideal for staff involved in the routine checking, inspecting and monitoring activities required under L8 Legionnaires' disease: The Control of Legionella Bacteria in Water Systems for both domestic systems and cooling tower systems. It is ideally suited to technical and maintenance staff, responsible for water system testing at their premises.

Delegates should either have completed Legionella Awareness Training or have a level of understanding equal to that of the syllabus before completing this course.

WHAT IS COVERED?

- Water System Regulation and L8
- Understanding the Legionella Risk Assessment
- Identifying Control Measures
- Temperature Testing and System Inspections
- Understanding Water Chemistry Results
- Water Treatment
- Record Keeping
- Emergency Procedures

This course will assist delegates in meeting the competency requirements of L8 Legionnaires' disease: The Control of Legionella Bacteria in Water Systems.

HOW LONG IS IT?

From Half Day (3 – 4 hours)

This course is ideal as a bespoke course delivered at your own premises using your own systems. Course duration will be dependent on the systems you have. Assistance can also be provided with the preparation of Policies, Risks Assessments and Water Management Systems.

Places are limited to 10 delegates per course and can be held throughout the UK at a venue of your choosing to keep disruption to your business to a minimum.

Upon completion delegates will receive a certificate of attendance.
